The WWS world ranking list will be calculated using a two-year rolling points system. Please refer to the re-ranking document for confirmation of point drop-off dates.

At any event where players are seeded straight through to the knock-out stages and lose their opening match, they will receive zero ranking points for that event.

Group points set out above apply only where a player fails to qualify for the knock-out stages of an event. Should a player qualify for the knock-out stages from their group in 2<sup>nd</sup> position they will receive knock-out points only.

A player who enters an event and does not compete at least one match of the competition shall not receive ranking points.

Players who have not competed in an event during the previous two years will be removed from the ranking list.

At the end of the season players on equal ranking points will be ranked according to the most points earned in the last season. Should this not determine positions, points won in events working backwards from the final event of the season will be considered. Finally, if still equal, frames won in losing final match would be used from events working backwards from the most recent event.

\*points breakdowns from these events may change depending on event format.
